TREE PLANTING IN LORIN FARR PARK

Ogden citizens are invited by Commissioner Miles L. Jones, superintendent of parks, to join in an official tree planting event at Lorin Farr park at 10 o'clock tomorrow morning.

President L. W. Shurtliff will go with the city officials to the park and will plant a number of trees, some of which he may give names. Any citizen may plant trees in the park and can name them, if so desired. Trees may be planted and named after soldiers who served in the war or after any one else, or after some event of history pertaining to city, state, nation or the world.

There are many trees that can be transplanted now growing in the park grounds or on the city property nearby.

It's the income taxes that render the autoist's repair kit indispensable.

The stars on an officer's coat often cause a girl to become a star-gazer.

SUPERINTENDENT HAS RESIGNED OFFICE

County Superintendent of Schools W. N. Peterson has announced his resignation to take effect on June 30 next. The school official has held the office for a total of eleven and a half years, since he was first inducted in 1904.

Since his announcement, there have been many protests from citizens in all parts of the county who desire to have him reconsider his intention to retire from school work, but Mr. Peterson is firmly resolved to give up the work in which he has been engaged for so long and which has won him great respect.

In an interview, Mr. Peterson said: "I have thoroughly enjoyed the work with the public schools of Weber county and appreciate the loyal support of the board of education, the supervisors, the principals, teachers, children and patrons of the Weber county school district. It is with some regret that I retire and I will always remember with pleasure my experience in this educational work for the past twelve years."

TEACHER SHOT DURING CARNIVAL AT THE HIGH SCHOOL

At the height of the fun and frolic of the high school carnival on Saturday night, Miss Verna Max Davidson, a teacher from the Dee school and daughter of Max Davidson, was shot in the foot when a number of the students who were representing the "wolly" west began shooting revolvers that were supposed to have been loaded with blank cartridges.

An investigation was immediately begun to ascertain who had fired the cartridges into the assembly, but so far the blame for the accident has not been fixed. The police and the school authorities, however, state that they know who it was that fired the shot that injured the teacher and they are waiting to give the student a chance to make a statement voluntarily.

A number of the students had chosen to represent the old-time cowboy and were dressed in fitting style, not forgetting guns of all sizes and descriptions, ranging from .22 to .45 calibre. The shot which injured Miss Davidson was a .32 calibre.

The accident occurred about ten o'clock. It was shortly after the in-class dancing contest had taken place. The school assembly hall was crowded to the limit with revelers in costume, dancing and patronizing the various booths at the carnival. Suddenly a fusillade of shots broke forth and a call was made for the boys to cease firing. Prof. Beason ordered all shooting to cease immediately, realizing the danger of even blank cartridges in a place so closely crowded. He was unable to give the order to all the boys immediately, however, and some shots continued in various parts of the hall. Suddenly Miss Davidson rushed to the north side of the hall and exclaimed, "I'm shot."

Dr. Ezra Rich, who was at the carnival, attended the injured teacher. The bullet had taken a downward course, striking the leg well up on the back of a high-top shoe and ripping the shoe several inches before entering the heel and penetrating the foot. The bullet went completely through the foot and was loose in the shoe when removed. The teacher was taken to her home immediately. She will be unable to walk for several weeks, although the wound is only in the flesh.

NOTICE

Sego Lily Circle No. 174, Neighbors of Woodcraft. Special meeting has been called for Tuesday evening, April 15th, 6 p. m. to consider applications and balloting on same.

LAURA V. CAREY, G. N. 2041

Bright Prospects for Drainage Projects in the County of Weber

In order to determine the actual area in Weber county that is in need of drainage and can be successfully drained, Mr. R. A. Hart, representing the drainage investigation for the department of agriculture and the drainage department of the bureau are drawing a county map showing the water logged area. Mr. Hart and the county agent have been over one half of the county, and compiled data for same. It is our opinion that many of our farmers and the business men of Ogden will be greatly surprised, upon completion of the work, to see that the larger portion of our county is in need of drainage.

The supervisors for the drainage district No. 1, at Huntsville have filed their bonds with the county clerk and are now in a position to organize and commence business. One of the first procedures after organization will be the employing of an engineer to make surveys and take general supervision of the work. The Huntsville people expect to have trenching machines operating during the latter part of the summer.

The trenching machine for Hooper begins operation again. For a short time work was delayed during the spring break-up which caused a rise in the water table in that section thereby stopping drainage work temporarily. The machine is now digging for T. A. Lowe. From the prospects the Hooper machine will be kept busy doing trenching work at Hooper and other localities for some time to come.

RABBIT CLUB AT THE INDUSTRIAL SCHOOL

A. I. Tippetts, in charge of the boys' and girls' club work in Weber county, is to start a rabbit club at the State Industrial school this afternoon. Mr. Tippetts states that the institution has agreed to supply enough money to five boys of the school to allow each to purchase two rabbits.

The club will first be started with a membership of five and if it proves successful it will be enlarged. From the profits received by the boys from their products they will reimburse the institution for the money that they expended in giving the boys a start.

When a boy is paroled, he can sell his interests to another boy at the school and thus be enabled to make a little money for himself while at the school.

Ogden Chapter No. 2, Royal Arch Masons

VICTORY ARMADA ARRIVES

Sailors and Marines to Have Vacation on Home Shores.

103 VESSELS ANCHOR

Naval Airplane Squadrons Gave Fleet a Noisy Greeting.

NEW YORK, April 14.—The Atlantic fleet, comprising in ships and tonnage the greater part of the "victory armada" ordered here to give thirty thousand sailors and marines a vacation on home shores, steamed into New York harbor today. With its arrival the greatest assemblage of war craft ever seen in any American port—103 vessels—rode at anchor in the North river and almost immediately launches started shoreward with the first contingents of officers and men on leave.

Preceded by a flotilla of fifty destroyers, thirteen submarine chasers—the "teeth" of the fighting fleet—entered the harbor shortly before noon, the Mississippi, Oklahoma and Wyoming leading and close in their wake the Pennsylvania, flying the flag of Admiral Mayo, cadre of the fleet and ranking officer of the units assembled here from two oceans.

As the fleet came into port, division after division was met by squadrons of naval airplanes, their wings flashing in the brilliant spring sunshine, their engines humming a noisy greeting as they looped and swooped above the slowly steaming water craft.

Transport Brigs 345th NEW YORK, April 14.—The American transport Floridian arrived today with members of the 345th machine gun battalion, including headquarters, medical detachment and Companies A and B, totalling eight officers and 333 men destined for Camp Kearny, Funston, Dodge and Lewis, and part of the 362nd infantry including third battalion headquarters, Companies H, I, K, L and M, medical and ordnance detachment and supply company, 29 officers, 1325 men destined for Camp Dix, Dodge, Funston, Grant, Kearny, Lewis, Pike and Taylor.

Shall Ogden Vote Improvement Bonds On Next Wednesday

Whether Ogden will or will not provide \$225,000 with which to build the Ogden sewerage and outlet sewer is to be decided on the bond election vote to be held on Wednesday, April 16th, that will be arranged if the bond issue passes. Belief that the plan will meet with the approval of the taxpayers voters has been expressed by the various city officials, while state health officials have urged that Ogden take this favorable action so that it will not be necessary to take some other course to do away with the menace of the present sewer outlet.

The proposed intersecting sewer is planned to run north from Twentieth street and Wall avenue, where it will intersect the present sewer system, to the north city limits and then west to the Weber river. This plan will make it feasible to construct lateral sewers from the main sewer through the Third ward districts. In some sections of the Third ward where there is considerable population the lateral sewers are greatly desired by property owners. City officials have indicated that these will be built as they are sought by property owners, the cost of the lateral sewer, but not of the main sewer—to be borne by special improvement districts.

City Engineer Tracy, who arranged the plans for the sewer system, says that the Ogden trunk line sewer to the new outlet will be found absolutely necessary for the city, as a means of eliminating the present menace to health conditions. Such also is the view of Mayor T. S. Browning, head of the city health board; George Shorten, city health inspector; Dr. T. B. Beatty, secretary of the state board of health and others who have considered the problem. The state health board has condemned the old sewer outlet and, just prior to the war, had ordered changes made for the purpose of protecting the health of the community. This work was deferred, however, because of the war conditions. With the growth of the city, the health officials consider that the menace has even become graver. They feel that in the plans adopted by the city commission and now submitted to the taxpayers voters there is the opportunity to not only remove this menace, but also to provide for the eventual building of sewers in the Third ward, a section which has been devoid of this public improvement, and which many believe will build up with rapidly in case the public betterments are made.

GEORG LEDEBOUR NOT RELEASED

Socialist Writes Attack on Prussian Minister and Makes Many Charges.

BERLIN, Saturday, April 12.—The soviet congress was informed today that Georg Ledebour, who is confined in Moabit jail and whose release was demanded on March 30 by the communist workmen's council, will not be liberated.

Independent Socialist newspapers print an attack written by Ledebour, while in jail upon Herr Hein, Prussian minister of justice, accusing him of mistreating Spartacan prisoners in the Moabit jail. He declares himself in daily fear of being murdered and that Karl Radek's life was in constant jeopardy while he was in prison. Ledebour claims that he has heard groans of arrested Spartacan adherents who, he says, were being "done to death in some hidden recess of the prison." He declares that he has also heard rifle shots "indicating wholesale executions" there.

SOVIET ATTACK EXPECTED. BERLIN, Sunday, April 13.—A Dresden dispatch to the Vossische Zeitung says that an assault by soviet forces on the citadel of Neustadt section of the city on the right bank of the Elbe is expected. Frontier troops and troops from Ploern, eleven miles southeast of Dresden, have established themselves near the Catholic church to defend the northern end of the Friedrich August bridge. Some of the Jaeger and grenadier troops are reported to be unreliable, their arms having been distributed among the insurgents.

MILITARY DICTATORSHIP.

NUREMBERG, Sunday, April 13.—A report from Third army headquarters at Munich says that the garrison has established a military dictatorship in support of the Hoffmann ministry, which the soviet regime seeks to oust from office. Action to recover the capital from soviet forces is progressing favorably, it is said.

Dr. Adolf Lapp, who was appointed commissioner for foreign affairs in the soviet cabinet on April 9 has been placed in an insane asylum, according to report. When his appointment to this office was announced, it was said that he had on two occasions been confined to an asylum for megalomania. Dr. Leven, leader of the independent Socialists, is believed to have fled, and soviet leaders, including Herr Landauer, Herr Wagner and Herr Neupman, members of the soviet ministry, are said to have been arrested.

WORLD'S MARKETS

NEW YORK, April 14.—Much of the strength shown by stocks at the opening of today's session was attributed to publication of the terms of the Victory loan. Gains of 1 to 2 points were scored by investment rails, United States Steel, American International, leading oils, United States Rubber, Keystone Tire, Associated Dry Goods, Corn Products, United States Food Products and Wilson Packing. Some of these advances were reduced before the end of the first half hour with the heaviness of St. Paul preferred and Sumatra Tobacco.

CHICAGO GRAIN

CHICAGO, April 14.—Wet weather likely to interfere with the crop movement had a bullish effect today on corn. Opening prices, which ranged from 1/2 to 1 1/2c higher, with May \$1.59 1/2 to 1.59 1/2, and July \$1.52 to 1.52 1/2, were followed by a moderate reaction.

	Open	High	Low	Close
Corn				
May	\$1.59 1/2	1.60 1/2	1.58 1/2	1.60 1/2
July	1.52	1.53 1/2	1.50 1/2	1.53 1/2
Oats				
May	.69 1/2	.69 3/4	.68 1/2	.69 3/4
